PRODUCT GUIDE TO KALEA PLATFORM & CABIN LIFTS

Lift solutions for private, public and commercial buildings

KALEA 
LIFTS

KALEA LIFT SOLUTIONS

Kalea Lifts offers you a wide range of elegant lift solutions that will blend in seamlessly with the architecture of any building. Regardless of lift size, model and choice of finish, our lifts are designed to have minimal structural and environmental impact.

THE UNIQUE KALEA QUALITY

Thanks to their smart and space-saving concept, our lifts will add comfort and beauty to any interior, at a fraction of the cost of a conventional lift.

The lift installation only takes a few days and has minimal structural impact on your building. Our screw-driven lift technology is reliable, robust and environmentally friendly, making a lift a by Kalea a very good choice.

KALEA ATMOS

DESIGNED WITH THE USER IN MIND

Our product designers put a lot of thought into creating a home lift that provides you with exceptional user experience. Kalea Atmos combines natural materials, LED lighting and user-friendly features into an exquisite blend of Scandinavian style and ergonomic elegance, offering you a beautiful residential lift, designed with the user in mind.

KALEA HOME LIFTS

KALEA ATMOS DESIGN CONCEPTS

Kalea Atmos makes it easy to create a lift design that blends in seamlessly into your home. Choose between cool metal, warm wood or soft fabric and build it from there. Our great choice of colours and materials gives you the freedom to design a home lift that reflects your taste and unique sense of style.

"Study nature, love nature, stay close to nature. It will never fail you."

Frank Lloyd Wright

METAL

The smooth and sleek metal concept gives your lift a timeless look and offers almost infinite possibilities of different colour combinations.

TEXTILE

Our textile concept adds a touch of soft sophistication to your lift, covering the platform back panel in elegant, light blue linen or warm, grey wool.

WOOD

The wood concept offers you the choice between two distinctly different grains: blonde oak or golden bamboo for the platform back panel.

CUSTOMISE YOUR KALEA ATMOS

Discover our wide range of colours and materials. For more information, please visit www.kalealifts.com

KALEA ATMOS OPTIONS

KALEA ATMOS BACK PANEL

The Kalea Atmos platform back panel is available in 3 different materials:

- **Metal:** back panel in close to 300 RAL and premium colours
- **Textile:** back panel in light blue linen or grey wool
- **Wood:** back panel in oak or bamboo

Beige

Handrail and top safety bar

The handrail and top safety bar of the platform are available in any RAL or premium colour. In fact, almost all almost all elements of the Kalea Atmos platform can be customised to blend in seamlessly into your interior.

OUTDOOR LIFT SOLUTION

Our weather resistant outdoor lifts offer comfortable access to all floors, create a seamless flow between your indoor and outdoor areas and preserve the space inside. Visit www.kalealifts.com to download our outdoor lift brochure and learn more about our outdoor lift concept.

DO YOU HAVE 1 M² TO SPARE?

If the answer is yes, you have enough room to install a home lift. Thanks to its slim and compact construction, Kalea A4 Mini is small enough to fit inside a normal wardrobe or to be installed in your staircase.

KALEA COMMERCIAL LIFTS

Platform lift Kalea A4 Primo is a space-saving and elegant lift solution which is a great choice for your business. The ready-made lift shaft, minimal pit and low top height make lift installation incredibly fast and easy in both new and existing buildings.

BESPOKE FEATURES

To keep the space open and airy, the Kalea A4 Primo can be equipped with a gate on the top floor.

For this particular project, customised wooden door handles were created to make the lift design tie in with the beautiful hardwood floor.

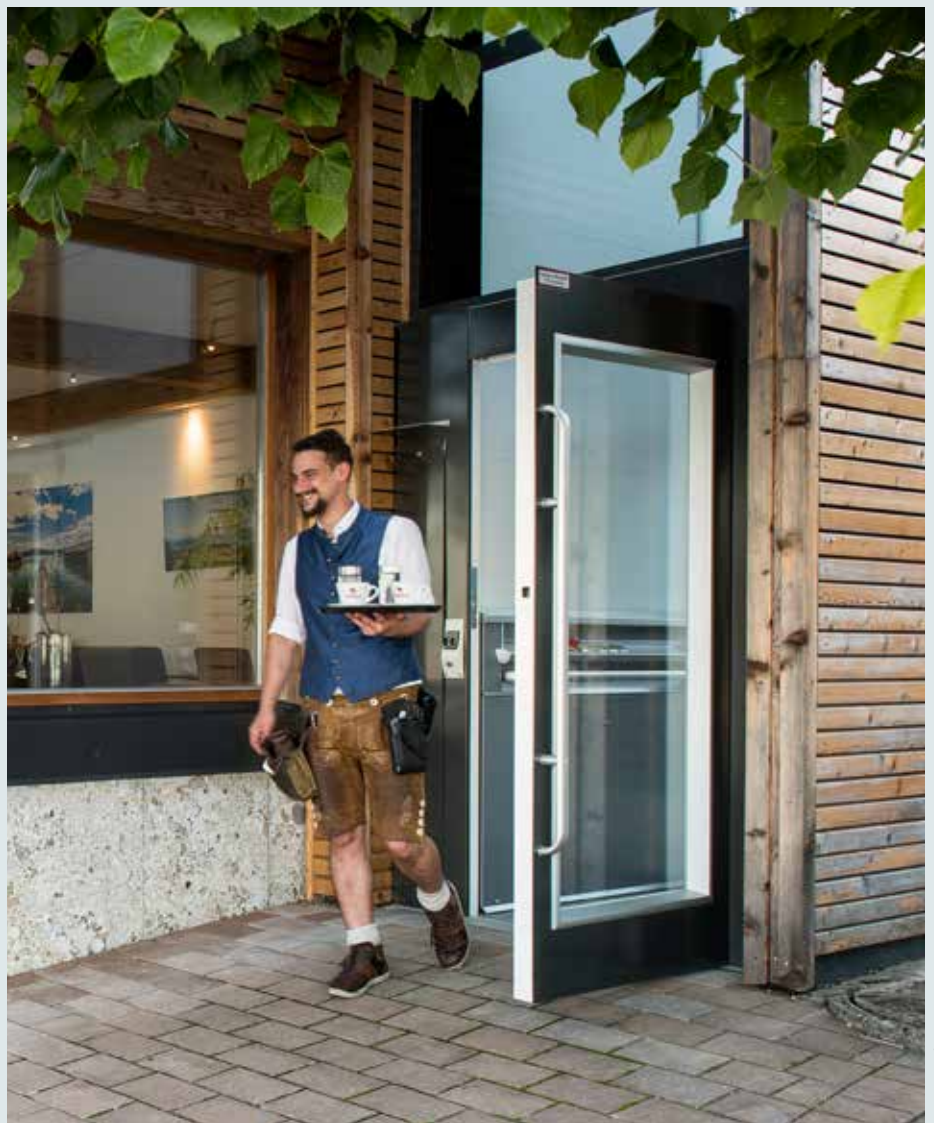

KALEA PUBLIC LIFTS

The low pit, small footprint and ready-made lift shaft make our lift solutions ideal for existing buildings.

Kalea offers you a great choice of different shaft materials, colours and door models to create the perfect lift design for your project.

KALEA CARGO & STRETCHER LIFTS

The Kalea A4 Mille is a large, powerful and versatile lift. The lift is certified for transportation of both passengers and goods and has a capacity of 1000 kg.

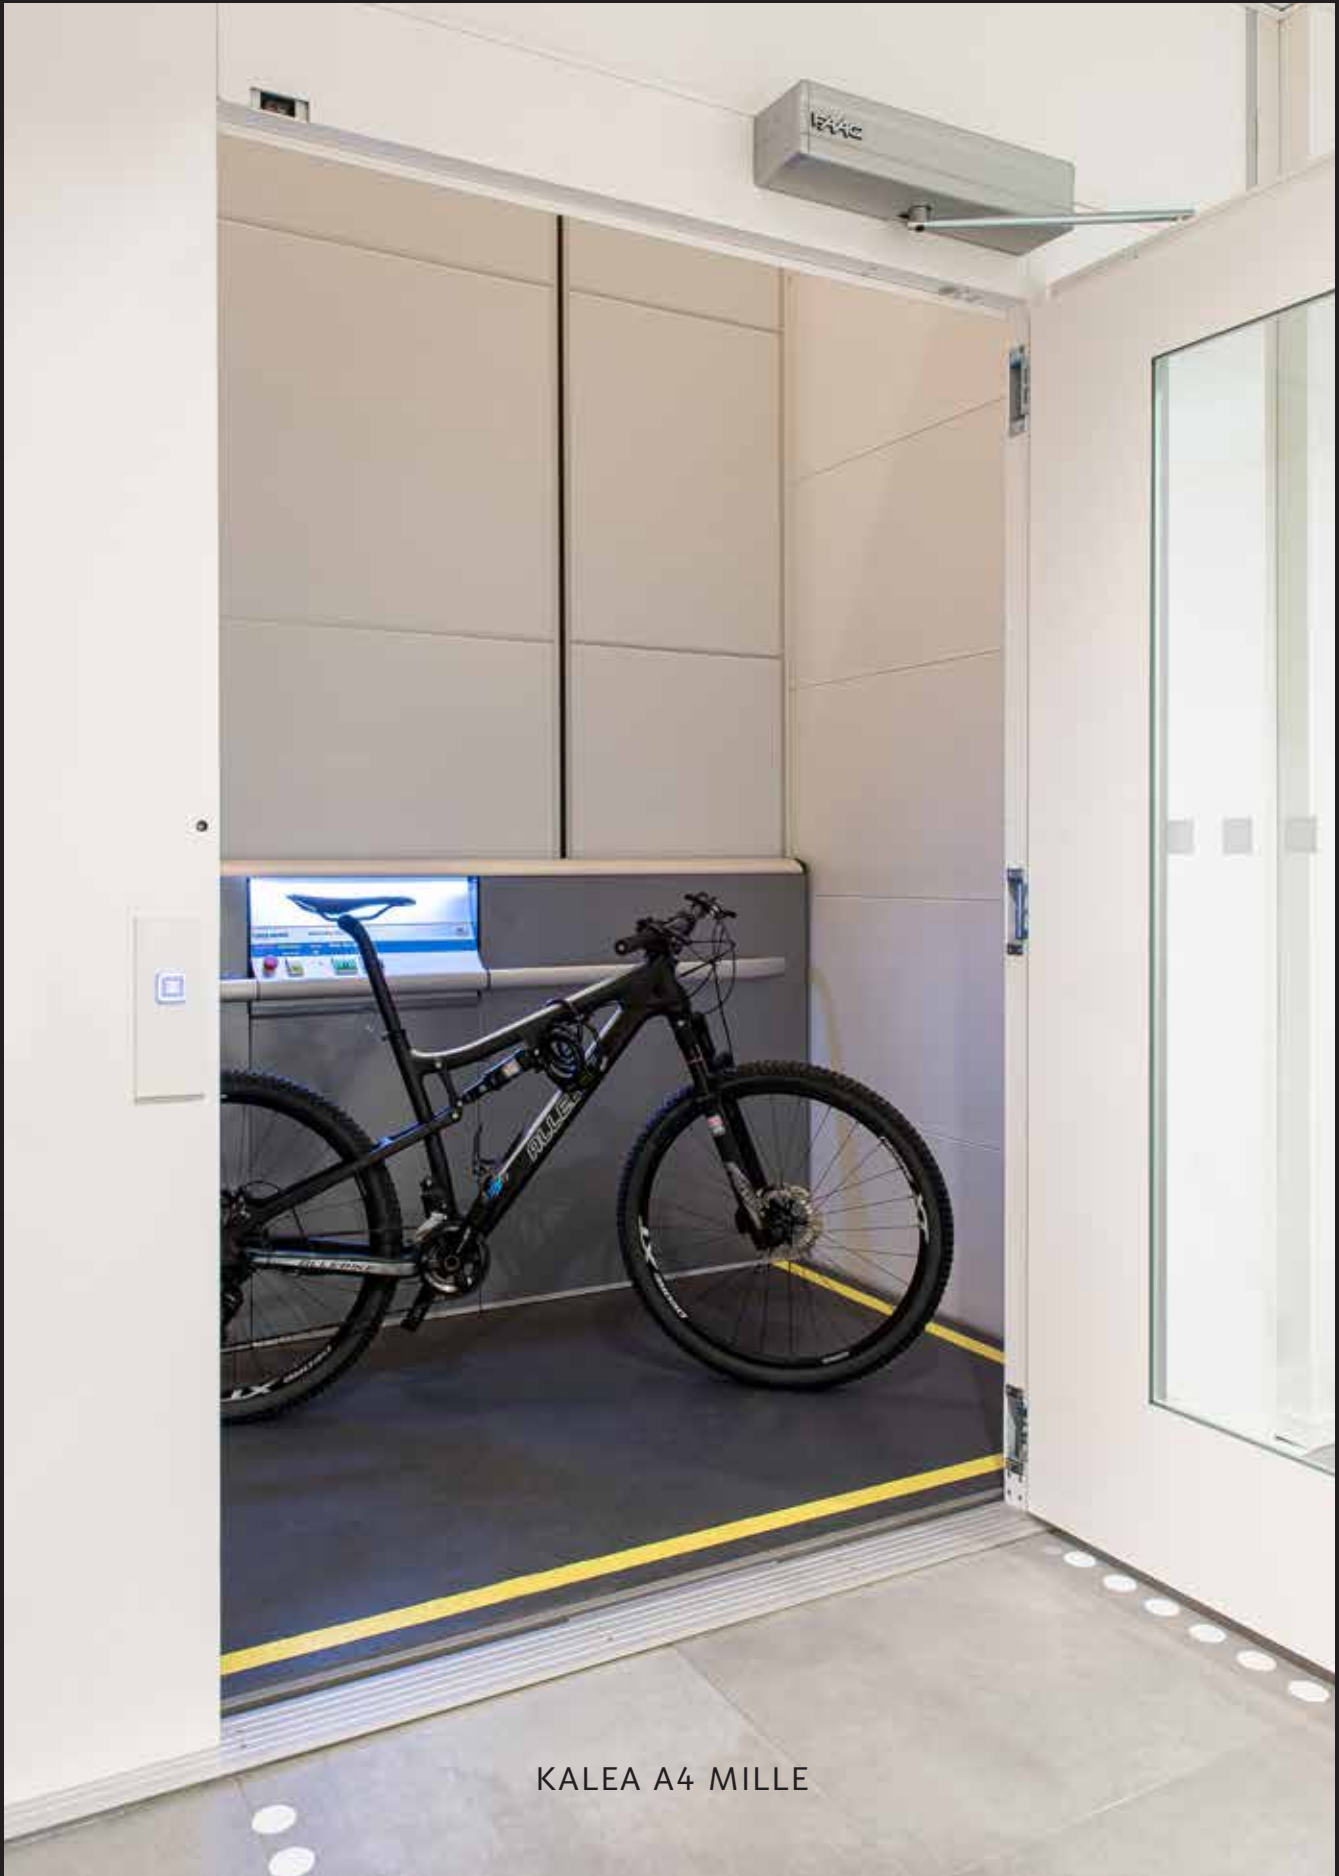

The low lift pit, reduced top height and ready-made shaft, make the A4 Mille a very cost-efficient lift solution for a wide range of public and commercial applications

VERSATILE & POWERFUL LIFTS

Thanks to the generous platform dimensions and extra wide doors, the Kalea A4 Mille has the capacity to handle goods pallets and pallet trucks, just as well as stretchers, hospital beds and groups of up to 10 people.

KALEA A4 MILLE

KALEA ECOSILENT – A QUIET REVOLUTION FOR SCREW-DRIVEN LIFTS

For many years now, the demand for lifts has been growing at the same pace as the ageing population and the number of floors in our buildings. However, lifts consume an estimated 4% of the energy produced globally and generate a lot of noise pollution in our homes and cities.

This inspired our engineers to create the EcoSilent drive system, which is a quiet revolution for screw-driven lifts.

A lift equipped with EcoSilent carries Energy Label A and only uses an estimated 215 kWh per year, which is less than a modern washing machine.*

In addition, the EcoSilent system brings the sound level down to as little as 40 dB, which equates to the sound level inside a quiet library.**

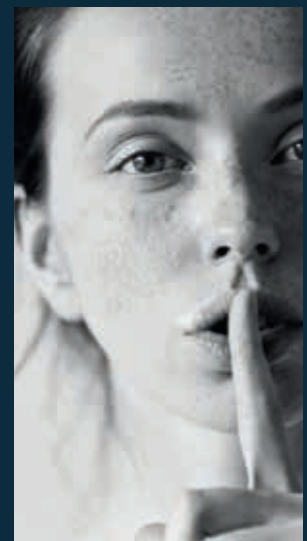

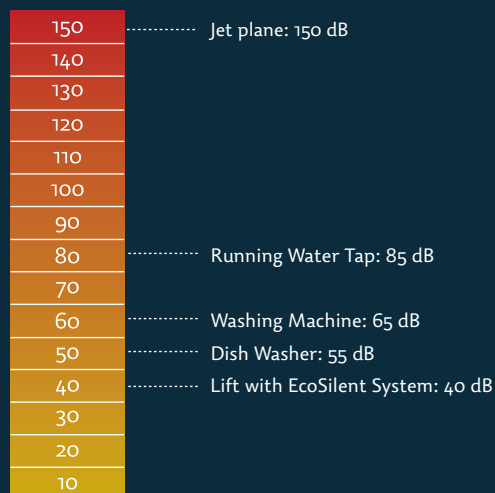

* Estimated energy consumption based on a 2 stop lift with 3,6 m travel, equipped with EcoSilent and a frequency of use of 20 travels/day.

**Sound measurement performed 2 m from a lift, with a 150 kg load, travelling at constant speed.

SILENT OPERATION

Lifts equipped with the EcoSilent system are extremely quiet. Inside the lift, the sound level is 55 dB equivalent to the sound of a dish washer. Outside the lift, the sound level is 40 dB.

OPTIONS FOR YOUR PLATFORM LIFT

Because your comfort is important to us, we offer a wide range of accessories and options to make our lifts even more convenient and easy to use.

TOUCHSCREEN CALL BUTTON – The call button with touchscreen panel includes a level indicator. A tag reader for auto lock is available as an option.

CLASSIC CALL BUTTON – The classic call button is available with a face plate in any RAL or premium colour and can be fitted with various locking systems. The call buttons can also be wall-mounted as an option (box provided).

SHAFT OPTIONS – The ready-made shaft is available in steel or in clear or tinted safety glass. All four sides of the lift shaft can be glazed for an open and airy look.

DOOR MODELS – Choose between steel doors, aluminium doors or EI60 fire rated doors. The steel and aluminium doors are available with concealed automatic door openers to provide access in full comfort.

SHAFT CEILING WITH LED LIGHT
Energy-saving and durable lighting

CREATE YOUR BESPOKE DESIGN

Kalea offers you the freedom to create a unique platform lift design, perfectly in tune with your building and sense of style.

KALEA CABIN LIFT

THE SMART CHOICE

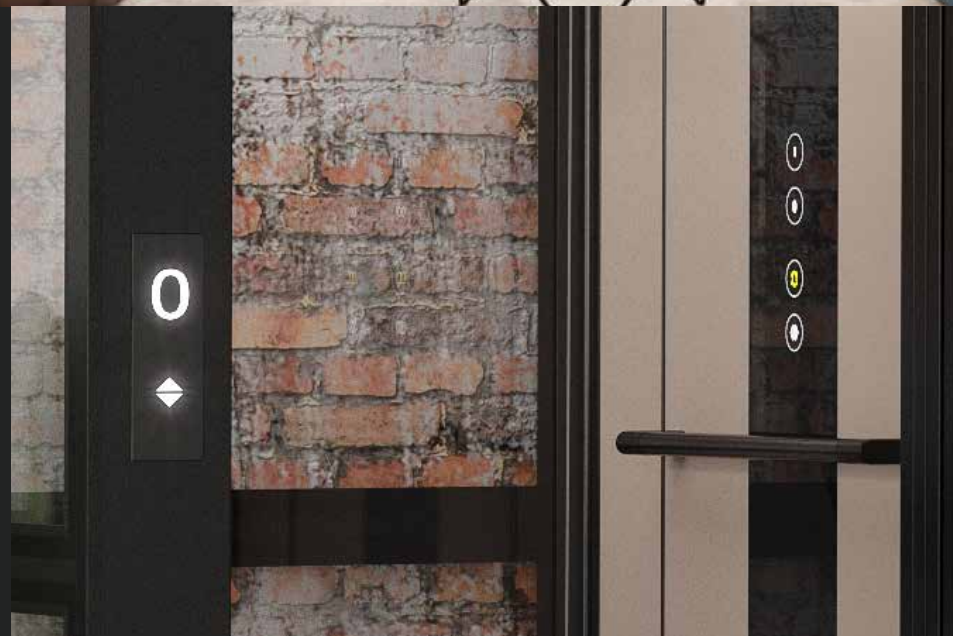

The modular construction of Kalea C1 Futura enables us to streamline our lift production, but also offers you several advantages: Your lift can be delivered and installed a lot faster than other lifts, while our ready-made lift concept minimises the need for refurbishment and reduces your building costs. In addition, our screw-driven system is very reliable and low-maintenance, compared to other drive systems.

SPACE-SAVING DESIGN

Operated with one-touch automatic controls and equipped with sliding doors, the Kalea C1 Futura gives you all the comfort of a cabin lift with the major advantages of a platform lift.

- Low lift pit of 100 mm
- 2500 mm top height
- Ready-made shaft as an option
- Lift capacity of 300–630 kg

LIFT DESIGN TRUE TO YOUR STYLE

Kalea C1 Futura offers you an elegant, efficient and adaptable lift solution. Our great choice of colours and materials makes it easy for you to create a lift design, perfectly in tune with your own sense of style.

BUILT-IN TO BLEND IN

Kalea C1 Futura is available with or without a shaft for easy installation inside a site-built or existing lift shaft.

ACCESSIBILITY OPTIONS

To meet with different accessibility standards, the Kalea C1 Futura cabin lift is available with a range of accessories and options with an ergonomic and user-friendly design.

Ceiling with LED spotlights

120 LUX

Multi-functional integrated speaker

Speaker for emergency phone, voice announcement and arrival signal.

MAGIC MODULARITY

Thanks to our smart, modular concept, our lift solutions will save you a lot of time, money and space, compared to conventional lifts. While a conventional lift takes months to manufacture and several weeks to install, a lift by Kalea is delivered within weeks and installed in just a few days.

Day 1 – Installation

First day – The bottom frame, guides and platform are installed. Your platform lift can be installed with or without a lift pit.

Day 2 – Installation

Second day – The doors, shaft and platform cladding are installed, all electrics are plug & play and easy to connect.

Day 3 – Installation

Third day – The finishing touches are applied and all functions of the lift are tested. Your lift is now ready to use.

All Kalea lift models carry the CE mark and go through extensive testing and quality checks before leaving our factory. Our lifts are certified products that comply with European Safety Standard Machinery Directive 2006/42/EC. The brand Kalea Lifts is owned by Cibes Lift Group AB ©. For more product details and information about the product and accessory selection, contact Kalea Lifts. THIS IS KALEA

Kalea was created in 1898 in Gothenburg, Sweden, and is one of the oldest lift brands still in existence. In 2008, Kalea became a member of Cibes Lift Group, one of the world's largest manufacturers of space-saving, modular lifts. All lifts are manufactured in our factory in Gävle, Sweden, and distributed to more than 70 countries via a network of 200 certified dealers. Visit www.kalealifts.com to find your closest dealer.
