

SYMMETRY PRODUCT HIGHLIGHT

Recessed LED Lights With Trim

Symmetry's Residential Elevators come standard with two Recessed LED Lights with Black Trim. We also offer additional aesthetically pleasing options to help complement the decor of your elevator. The LED lights are energy saving alternatives to incandescent down-lights and they are the perfect enhancement to your elevator's ambiance.

With our Recessed LED Lights with Trim, customers can choose to upgrade by customizing them with Brass, Nickel or Bronze Trim Rings. The option is also available to have four lights instead of only two.
