# Landing & Car Door Options

## Your Elevator's First Impression, Perfectly Crafted

The landing doors of your residential elevator are crucial as they create the first impression of your home's vertical journey and seamlessly integrate with your interior design. Given each home's unique character, your choice of door type and aesthetic is paramount. We offer a versatile range of solutions, including the elegant Automatic Double Landing Door and our advanced Two-Speed Car and Landing Door for optimal space efficiency and a sleek, modern appearance.

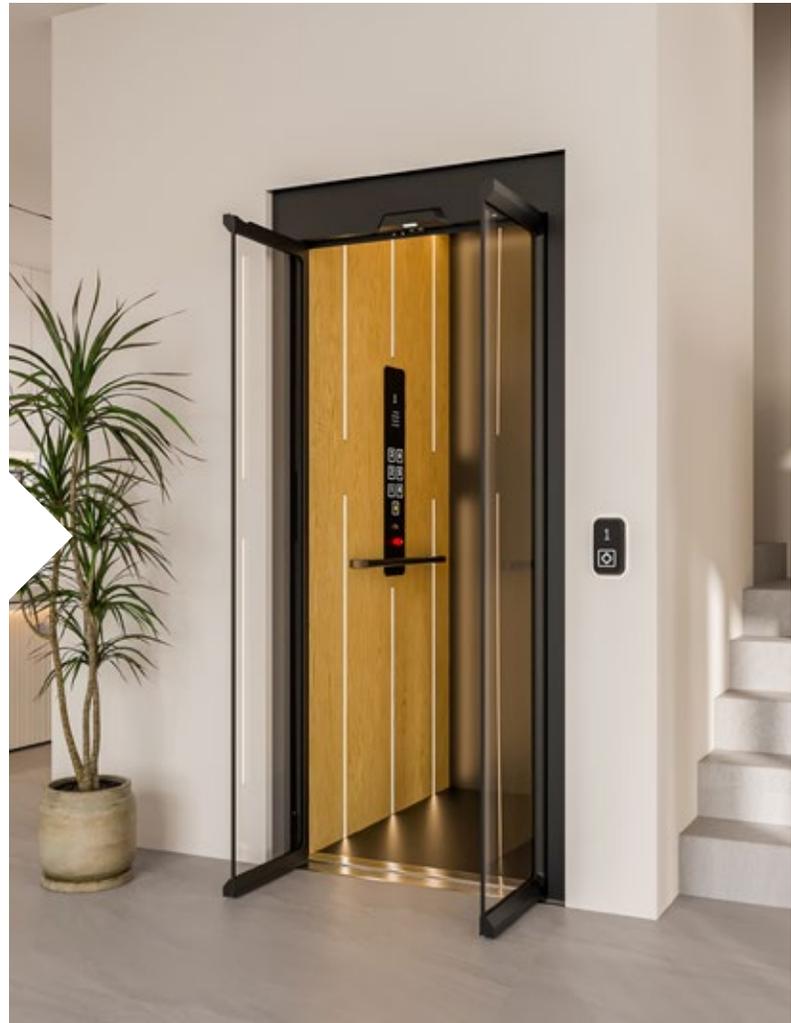

## Three Panel Car Door

The elevator car door is more than just an entry point; it's an integral part of your private elevator experience, providing both security and a critical design element within the elevator car itself. As you step inside, the cabin door seamlessly blends advanced safety features with sophisticated aesthetics, creating an inviting and harmonious interior. It's the final touch that ensures every journey is not only safe and smooth but also beautifully integrated with your personal space.

## Automatic Double Landing Door

A fully automatic aluminum double swing door with integrated lock that allows for easy of access to the hall call and has a small footprint into the corridor.

## Two-Speed Car and Landing Door

Crafted with strong construction and available in a wide array of finishes, our Two-Speed Car and Landing Door offers exceptional durability and aesthetic flexibility.

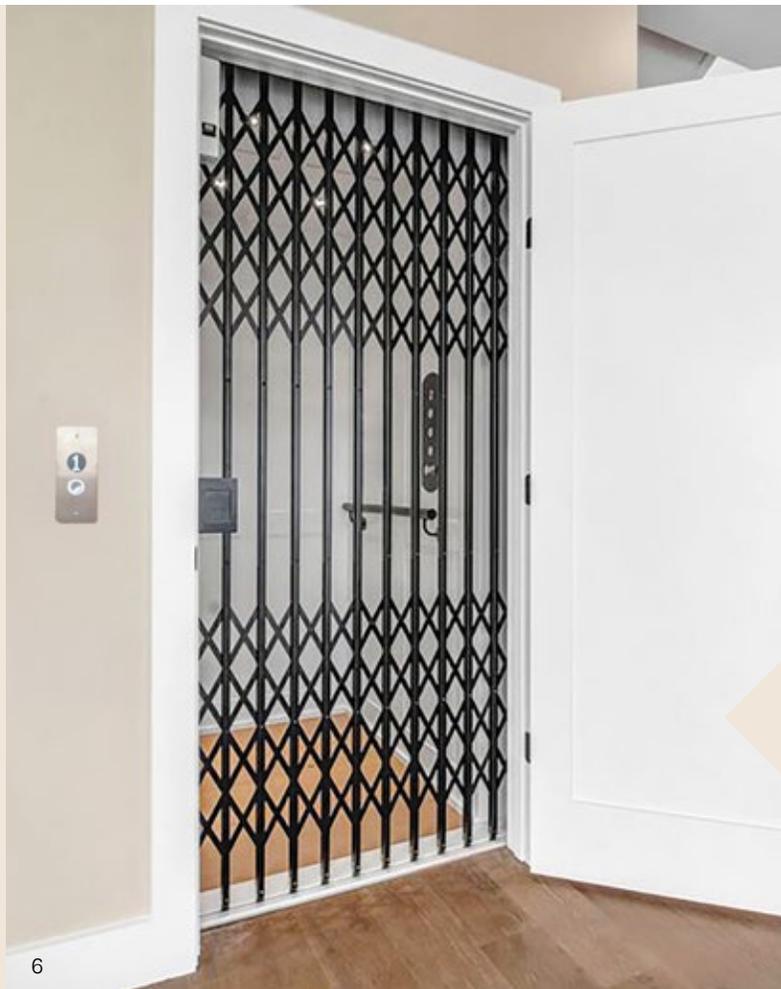

Do you want to know more about our customization options? Please contact your closest Cibes Symmetry distributor.

# Planning Your Residential Elevator

Beyond their essential role in passenger safety, the doors and gates of your residential elevator play a key role in connecting the system seamlessly with your home's interior. They are an important design feature, combining practical performance with personalized style to complement your living space.

When choosing the right doors and gates for your home elevator, factors such as functionality, space efficiency, and overall integration are just as important as aesthetics. Every residential elevator system includes two main door types: the car door, which travels with the elevator, and the landing door, which provides secure access at each floor.

## Three-Speed Door

If you prefer a more classic elevator look, we also offer Three-Speed Landing Doors for the landings. This is an easy and comfortable choice, as you do not need to worry about sourcing the landing doors yourself. The doors are supplied by Cibes Symmetry.

## Enterprise Collapsible Gate

The Enterprise Collapsible Gate is a robust, code-compliant elevator gate option designed to provide both safety and style for Cibes Symmetry elevators. It offers a strong collapsible structure that enhances passenger protection while maintaining a clean, elegant appearance that complements your home.

For more advice on the best door solution and design for you. Visit [cibessymmetry.com](http://cibessymmetry.com)

### **Accordion Door**

Accordion sliding gates are collapsible car gates. Accordion doors must be closed before the elevator operates and can be either manually or automatically opened. Regular swing doors are installed on each elevator landing, while the accordion door collapses into a pocket of the elevator car when opened. This allows you to match landing doors to your home decor.

## Three Panel Car Door:

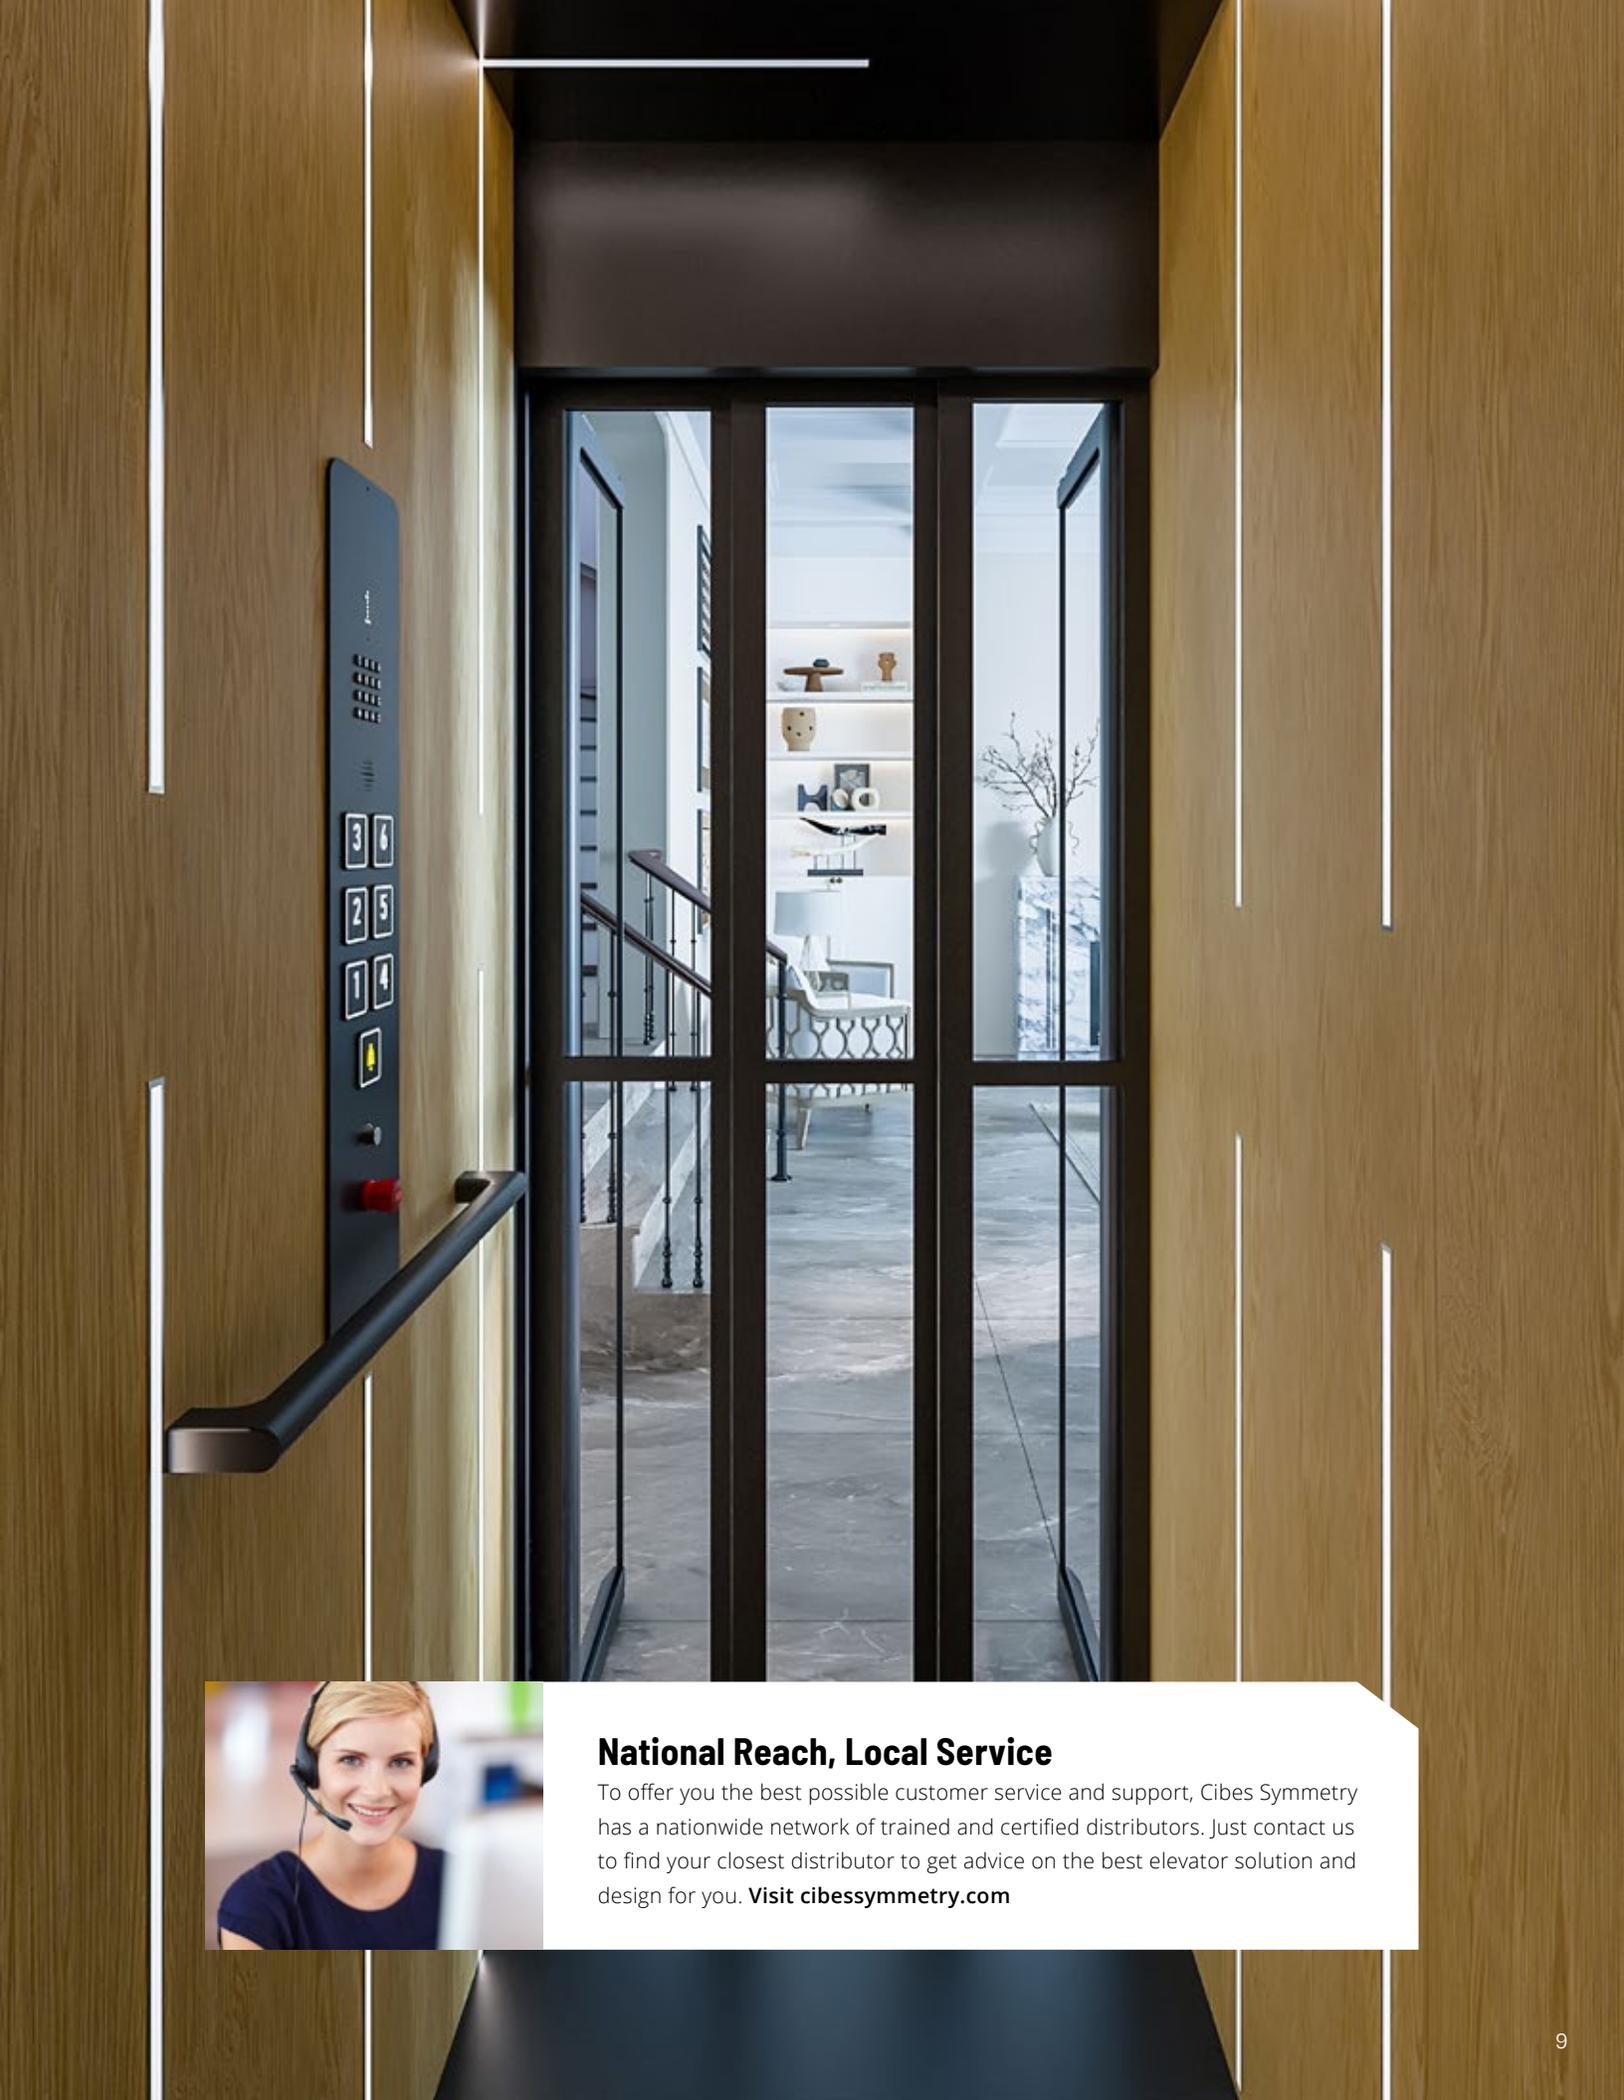

### Exceptional Safety, Elevated Style

Introducing our exclusive Symmetry Three Panel Car Door, engineered with advanced safety features for your peace of mind. This innovative design offers expansive vision panels, allowing natural light to flow through your space, and can be showcased in a sleek powder-coated Black finish. It perfectly blends robust performance with modern aesthetics, making it an ideal choice for any contemporary home.

### Key Features:

- ✓ **Modern Aesthetic:** Features an expansive glass panel for a sleek, open, and contemporary look.
- ✓ **Seamless Design Integration:** Engineered to perfectly complement the cabin designs, ensuring a cohesive and luxurious interior.
- ✓ **Robust Safety:** Incorporates advanced safety features for enhanced peace of mind.
- ✓ **Flexible Customization:** Available in adaptable heights (7'0" or 7'11") and widths (33" standard, 36" optional) to suit diverse spatial requirements.
- ✓ **Effortless Operation:** Provides smooth and convenient automatic power car door operation.
- ✓ **Personalized Style:** Offers vision panels in clear glass, and black powder-coated steel finishes.

### **National Reach, Local Service**

To offer you the best possible customer service and support, Cibes Symmetry has a nationwide network of trained and certified distributors. Just contact us to find your closest distributor to get advice on the best elevator solution and design for you. **Visit [cibessymmetry.com](http://cibessymmetry.com)**

# Automatic Double Landing Door

## Engineered for Elegance & Efficiency

Introducing our Automatic Double Landing Door, a cutting-edge solution designed to transform your elevator experience. Featuring precisely engineered, narrower center-opening blades, this innovative door dramatically reduces the swing radius compared to traditional hinged options, making it the ideal choice for optimizing space in tight landings and confined areas. Its remarkably compact footprint not only ensures unobstructed access to hall stations but also significantly enhances accessibility for wheelchair users, fostering a clean, effortlessly efficient entry and exit experience for everyone. This elegant, space-saving design provides a sophisticated aesthetic while enabling seamless installation in environments where conventional swing doors would be.

## Key Features:

- ✓ **Effortless Installation:** Designed for quick and convenient setup, ensuring a smooth project timeline.
- ✓ **Space-Saving Design:** Requires significantly less opening area than traditional swing doors, perfect for optimizing tight spaces.
- ✓ **Premium Finishes:** Choose from a selection of high-quality powder-coated colors for a sophisticated aesthetic.
- ✓ **Personalized Convenience:** Adjustable opening and closing times allow you to customize the door's operation to your preference.
- ✓ **Enhanced Safety:** Equipped with automatic obstruction detection for reliable and secure operation.
- ✓ **Robust Construction:** Features a durable aluminum door frame, complemented by steel fins for clean hoistway side finishing.

## Door Finishes & Styles

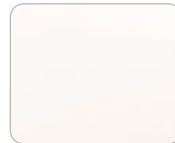

Each component is finished with a special, high-quality powder coating, available in a curated selection of premium colors, all to perfectly complement your home's interior design and ensure lasting beauty.

## Two-Speed Car and Landing Door:

### Enhanced Convenience & Performance

Our Two-Speed Car and Landing Door delivers the reliable, smooth operation typically found in commercial applications, optimized for seamless integration into your residential elevator. These fully automatic doors ensure effortless entry and exit for all passengers. Available as complete car and landing door packages, they provide a streamlined solution for your home elevator.

### Key Features:

- ✓ **Fully Automatic Operation:** Enjoy effortless and convenient access with smooth power-operated doors.
- ✓ **Advanced Safety:** Equipped with safety light curtains for enhanced passenger protection.
- ✓ **Quiet Performance:** Features low-noise motor technology, ensuring a quiet and comfortable experience within your home.
- ✓ **Extensive Finish Options:** Customize your landing door with a wide range of choices of elegant stainless steel variants.
- ✓ **Modern Aesthetic Appeal:** An ideal pairing for contemporary interiors, especially complementing designs with steel and glass elevator cars.

## Enterprise Collapsible Gate

The Enterprise Collapsible Gate is a versatile gate solution for Cibes Symmetry elevators that blends dependable safety with design flexibility. Ideal for homes and upscale environments, it features a reinforced scissor-style structure that folds neatly when not in use and offers a refined finish that can be tailored to your décor. Whether your priority is safety, style, or both, this gate adds peace of mind with a look that elevates the experience.

## Accordion Door

Accordion doors offer a reliable and space-efficient entry solution for residential elevators. Their flexible folding design allows for easy operation and maximizes usable cabin space while maintaining a clean, visually appealing profile. Available in a variety of finishes and panel options, accordion doors provide a practical, stylish alternative to traditional sliding or scissor gates — ideal for applications where simplicity, safety, and aesthetics matter.

## Door Finishes & Styles

Available in Light Oak, Birch, or White Laminate as standard, with additional options including wood veneers, acrylic panels, aluminum finishes, and multiple color choices.

## Best-in-Class Warranty

For your peace of mind, your Symmetry Asterix has undergone extensive quality checks before leaving our factory. Our residential elevators are designed to be both reliable and robust and come with a market leading 3-year warranty.

## Complete Peace of Mind

### Quality and Support to Count on

Because your safety is our top priority, all Symmetry residential elevators are ASME compliant and adhere to all relevant US codes. In addition, your local distributor will be there to advise and support you throughout the entire process, and we offer you an industry leading 3-year warranty. With us, you are in safe hands throughout the entire lifespan of your home elevator.

### We Tailor Your Maintenance

Just like a car, your elevator needs to be checked and serviced to make sure that it runs correctly and is safe to use. Our distributors have the expert knowledge and technical training to maintain your residential elevator. Just talk to your local Cibes Symmetry distributor and they will provide you with a maintenance contract tailored to your needs.

Our company was founded in 2008, by an entrepreneurial group of people, driven by the vision of elevating life across the US. Today, Symmetry has become a household name for elevators in North America, with high rankings on the Forbes List for Best Home Elevators.

In 2022, we joined forces with global Swedish elevator manufacturer Cibes Lift Group and became Cibes Symmetry. Together, we offer you close to a century of consolidated knowledge, combining Swedish innovation and design with US craftsmanship and expertise. Our wide range of ADA and ASME compliant elevating solutions is manufactured in the US and in Sweden and distributed through our nationwide network of authorized dealers.
