

STRATOS NG

PLATFORM STAIRLIFT

THE NEXT GENERATION

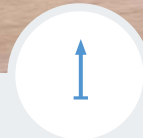

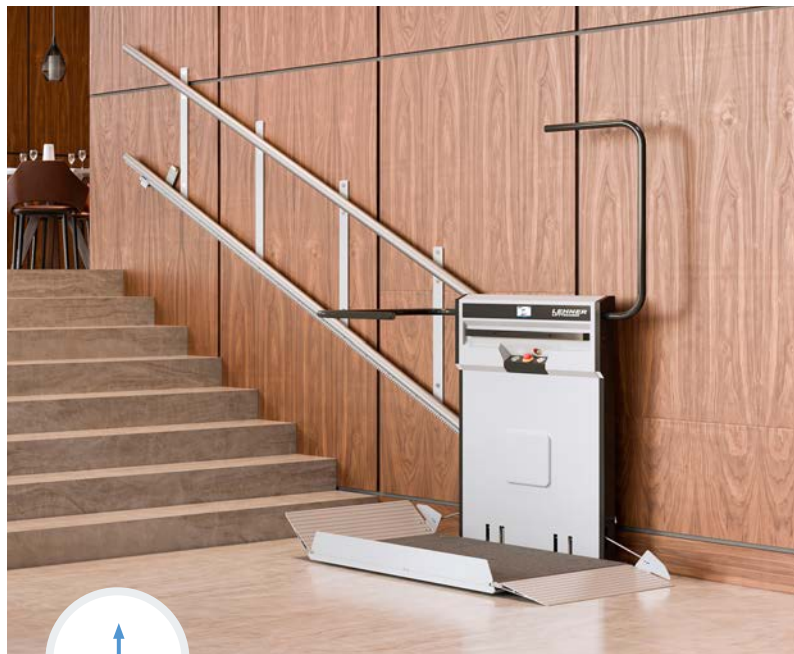

Proven technology rethought

- High-resolution color display with status display
- Reduced space requirement
- Powerful 0.75 kW motor
- LED platform lighting
- Ergonomically positioned control panel
- Electric emergency lowering system
- Motorized side ramp (optional)

The STRATOS for curved stairs

masters the tightest curve radii and steep flights of stairs. The curved version offers an efficient solution for a wide range of conditions.

The STRATOS for straight stairs

handles inclines of up to 60° effortlessly. The straight version can also be ordered with an aluminum rail

MULTI-TALENT

Additional comfort thanks to improved equipment

Equipped with the most powerful engine in its class

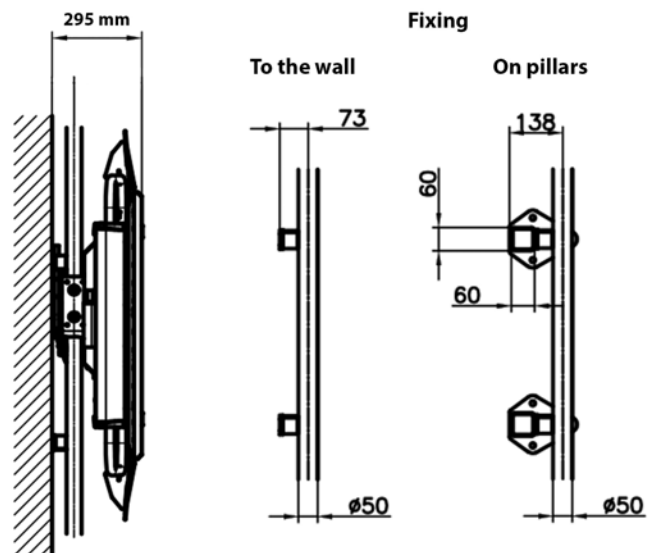

Color display with status indicator and ergonomic control panel

Slim, timeless design
